

End-Of-Life Announcement

Dear Sir or Madam,

VisiCon Automatisierungstechnik GmbH hereby announces the upcoming end of life (EOL) for the product listed below. Due to technological advancements and the availability of new key electronic components, these products are no longer being manufactured. This announcement applies to all versions of the products mentioned.

Software maintenance and software updates must be reviewed on a case-by-case basis. Customers with an extended warranty contract will continue to receive support in accordance with the terms of the contract and for the duration of the contract period.

Important dates

End-Of-Life Announcement (EOLA)	1 July 2026
End of sale (EOS)	31 December 2026 , Sale while stocks last

Information about the software and repairs

Maintenance and the provision of software updates for the products listed above must be evaluated on a case-by-case basis. In the event of hardware or software malfunctions, we recommend migrating to one of the successor products listed below. VisiCon continues to offer repair services for *dPP* measurement sensors, provided that any necessary replacement parts are available.

Recommended migration products

Name	<i>dPP</i> Gen2 3D probe, <i>dPP</i> -Twin 3D probe, <i>VisiScan</i> 3D probe
Order numbers	B253340, B25341, B253342, B275098, B253163
Availability	as of now

Please note that the compatibility of the migration products must be verified individually for the planned location and purpose.

Customers with an extended warranty agreement will continue to receive support under the terms of the agreement and for the duration of the agreement.

Please do not hesitate to contact us if you have any questions or require further information:
